

New Project Awarded in Kingdom of Saudi Arabia (KSA)

“New contract from Sadara Chemical Company (Sadara), world largest chemical complex”

SANKYU Saudi Arabia, overseas affiliate of Sankyu Inc. (Headquarters: Chuo-ku, Tokyo, Japan, President and Representative Director: Kimihiro Nakamura), newly has been awarded a maintenance contract at a petrochemical plant complex of Jubail Industrial City II in the Kingdom of Saudi Arabia (KSA)

In June 2019, SANKYU Saudi Arabia had been awarded its first project with Sadara for preventive and predictive maintenance work on ethylene and aromatic equipment (Wave-1). By acquiring a new project (Wave-2), we expand our services provided to Sadara in the maintenance work, which will add new achievements to our technical capabilities.

The contract covers preventive and predictive maintenance work on Sadara’s Chemicals Equipment, the Isocyanates Chlorine (Chem-1) and brine equipment, with opportunity to execute daily checks and repairs of the plant equipment, with the primary concern being process stability. Work under the contract begins in October 2020, and the contract term runs for 3 years, with an option to extend for 2 additional years.

The SANKYU group will continue to focus on global development with high performance of work Quality.

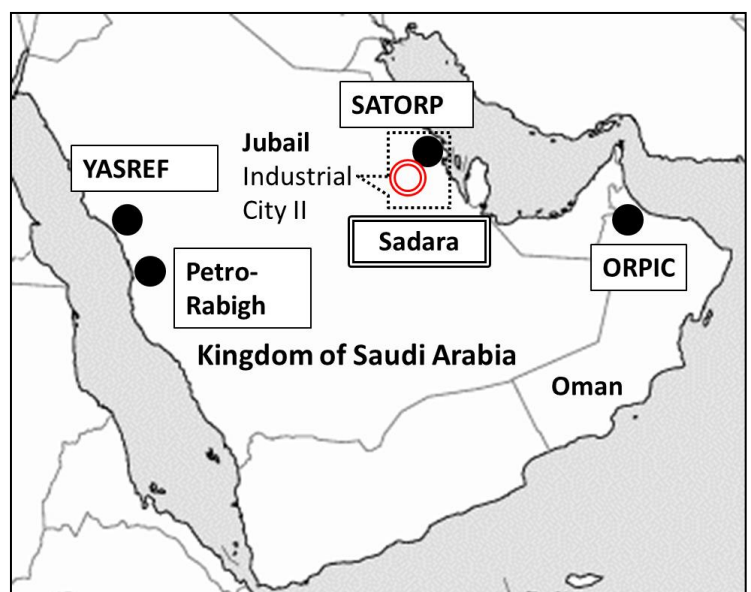

About Sadara

Established in 2011, Sadara is a joint venture developed by Saudi Aramco and The Dow Chemical Company. Sadara is a multi- billion dollar world-scale chemical complex in Jubail Industrial City II in Saudi Arabia Eastern Province. Comprised of 26 world-scale manufacturing units, the Sadara chemical complex is the world’s largest to be built in a single phase producing more than 3 million tons of plastics and chemicals annually and is the only chemical company in the Middle East to use refinery liquids, such as naphtha, as feedstock.

About SANKYU Saudi Arabia Co.

In 2008, we penetrated daily maintenance for Petrochemical plants in Rabigh, in 2012 at the SATORP refinery, in 2013 maintenance work and petro cokes handling at YASREF. We began operations in Oman in 2016.

We have been engaged in logistics operations and Plant Operation Support and daily maintenance, in refineries and petrochemical plants.
